DEMOCRATIC RATIFICATION.

A GREAT MEETING IN NEW YORK

Speeches by Senator Bayard and others, and Letters from Hancock and English

[SPECIAL TO THE OREGONIAN.]

New York, Sept. 24.—The great democratic mass meeting last night was perhaps the most imposing political demonstration that has ever taken place in this city. Union square and adjoining streets and avenues were literally jammed with people and all about was brilliantly illuminated. The principal meeting was in Tammany hall which was packed with a most enthusiastic audience. John Kelly called the meeting to order and was greeted with uproarious applause. He introduced Daniel Dougherty of Philadelphia who made an eloquent opening address.

Irving hall was not less crowded than Tammany hall and enthusiasm just as wild. John McKeon presided and read the following dispatch from H. M. Plaisted, Maine:

Thanks for invitation to be present at your ratification meeting over the victory of our plain people who believe our government established to protect labor and that it should confine itself to equal protection, equal benefits, equal privileges and as heaven does its rains, shower its favors alike upon all, high and low, rich and poor in the end that it may ever rest in interest of all and in love of all. Our victory will not be counted out. It has come to stay.

H. M. PLAISTED, Bangor.

Representative Waddell of North Carolina and others made speeches. Senator Wallace of Pennsylvania was presented to the crowd from a platform in the open air and excused himself from speaking in consequence of sore throat. Senator Francis Kernan of New York followed and said that no portion of the people of the United States had deeper interest in the character of the men to be selected at the next election, to make laws, or the character of the man to be selected as president of the United States than the people dwelling in this city. They were interested because they desire to do business with every state in the union. The republican party had failed in its duty to the best interests of the country by keeping alive bad feelings between the people of one section against another. Ex-Gov. Lee Carroll also made a speech. Also Wade Hampton made a speech of some length. An attractive part of the proceedings was a brilliant torchlight procession.

August Belmont was chosen chairman of the principal meeting. His speech was devoted in the main to consideration of the claim that the present prosperity of the nation is due to republican legislation and cited as a significant fact that only in 1879 with the house and senate both democratic, were we enabled to float our 4 per cent bonds at par.

The American people do not owe their present prosperity to either the republican or democratic law makers. They owe it first and above all, to the blessings of the Almighty, who has given them unbounded crops with which to feed the famishing masses of Europe, next, to forced economy and retrenchment in private and public expenditure, rendered necessary by the disasters of 1873, and lastly to the thrift, energy and skill of our planters, farmers and mechanics which have made us large exporters to the marts of the world, not only of the surface produce of our soil, but also of works of American invention and skill.

Resolutions were read and adopted, and letters of regret because of absence of writers were announced.

From Gen. Hancock: "*Dear Sir*—Please express my thanks to the committee for the invitation to be present at the grand meeting to be held in New York city on the 23d inst. If circumstances permit, it will give me pleasure to attend, but my occupations and engagements are such that it is not probable I shall be able to do so. If I should I will take the liberty of informing you hereafter."

Ex-Gov. Hendricks writes: I am very confident that New York and Indiana will both send democratic electors and that the national democratic ticket will be elected by a vote that no fraud can overcome.

From Senator Hill of Georgia: I am not entirely satisfied that addresses by southern speakers at the north will aid the party. I am quite sure that some which have been made have not aided it. I much prefer not to speak unless it is assured that I will at least do no harm, but my own opinion is that a well considered speech delivered by me to a quiet audience in Boston might do good.

From David Davis: Domestic causes which need no explanation, exclude me from taking part in any public meeting at this time. I regret not being able to give no more satisfactory reply to your invitation. Congratulations on restoration of harmony in New York and victory in Maine.

From Samuel J. Tilden: Though it may not be practicable for me to avail myself of your invitation to attend a meeting to be held on the 23d inst. in support of Hancock and English, I most cordially sympathize with its objects. Nor do I permit myself to doubt that the country is prepared to sustain all legitimate efforts to secure a better administration of the federal government.

Senator Bayard was then presented to the vast throng and was received with long and continued applause and waving of hats and handkerchiefs. He made a long speech, discussing many questions which enter into the presidential contest. He said that time has changed the population of the south as well as of the north. A new generation of men and women who could have had but little to say or do in relation to the war of 1861, now occupies and controls the country. Of the charge that in the event of democratic success, the war debts of the south, loss of slaves and claims for other losses growing out of the war and pensions for their wounded, would be paid out of the United States treasury, Bayard said that the best reply to all these wild, malicious and foolish assertions, is that such payments would be impossible. The good sense or honesty of that man is seriously to be impugned who does not read in the plain mandate of the fourteenth amendment, the absolute seal of illegality and nullity set upon all such claims. Having been for a number of years in Washington, I have learned who were the real beneficiaries of the claims paid by congress in the past ten years, of the class styled "southern claims," and in almost every instance a great part of the money flowed into the pockets of northern and very loyal assignees who had bought up these claims for a song from their impecunious southern owners. At a great gathering of republican ladies and gentlemen last week there were lawyers, bankers and statesmen who had more money in their pockets from southern claims, allowed by republican commissioners and republican courts, than the poor south ever received since the war or ever will receive from now until the day of judgment.

The cry of "solid south" received attention, and Bayard said that the south is not solid for anything the north need apprehend, and its solidity has no feature and no result unfriendly to the prosperity of the entire union. In relation to the condition of business and society in the southern states Bayard quoted freely from a paper by Edward Atkinson of Massachusetts, and published in the *Fortnightly Review*, in which appears these passages: "Total production of gold and silver by mines in the mountains and rivers of the whole world for 27 years has been $4,400,937,000 and the American cotton crop for the last ten years amounted to from $2,500,000,000 to $3,000,000,000 in gold values. Since 1865 an industrial revolution has occurred, and in the states made free by the war such as never before occurred. On the surface there has appeared to be misgovernment, fraud, political disturbance, want of stability and sometimes violence, but underlying this surface apparently so deeply agitated, great industrial forces have been quietly and surely working to the end indicated by great crops of cotton, the ten last crops marketed exceeding ten anti-war crops by nearly 6,500,000 bales, while the crop now being marketed will be far the largest ever grown. Violence and anarchy cannot have been the rule in a section that has produced greater crops for sale and has at the same time been more self-sustaining than ever before in its history. Speaking of the prosperity of the nation and of the production of tobacco, sugar and rice, Bayard said: And yet our domestic production of the last two articles is only in the southern states and tobacco is chiefly produced there. Of the tobacco crop, two fifths is retained and manufactured in the United States, and from it over $38,000,000 revenue has been derived the last fiscal year.

With the executive power of this government in the hands of an administration just and friendly to every section, how trifling will ever the great present be to the great future of prosperity that awaits us. Bayard referred to his visit to South Carolina and said: If any man who was unwilling to see truth, had been at my side during my visit to South Carolina he would have come away assured that industry was the rule among the people and that the relations of races were quietly and happily regulating themselves, and but for the devil's work of selfish and unscrupulous politicians of the radical party, there never would be any such difficulty among the people there. The claim that the resumption of specie payments were the work of the republican party received considerable attention and Bayard said that not until Bristow was placed at the head of the treasury was any suggestion or attempt made to resume specie payments. He declared that the resolutions formerly introduced by himself to hasten resumption were buried in Sherman's committee. Of Garfield Bayard said that he was chairman of the committee on appropriations. When corruption and extravagance ran riot in Washington City, when Boss Shepherd and his crew were drawing lens of millions to lay rotten pavements in those streets with false measurements, with double prices and with all the carnival of roguery from '69 until '75—when the democratic majority put an end to the lobby and congressional plunder—where was the voice and vote of Garfield? If he sought reform he did it so quietly as never to be heard. I leave the reports of committees controlled by men of his own party association, to describe his personal connection with disreputable transactions and only say that if we accept their account of Garfield we may well say: Never more be officer of mine. General Arthur was collector of the port of New York when under the infamous moiety system no merchant was secure against the seizure of his books and most private papers. Custom house bribery was a regular practice and custom house appointments were mere counters in exchange for political influence. Collector Arthur was dismissed from office because of these abuses and because [illegible] use the words of [illegible] Sherman had [illegible] by the president [illegible] would have been a serious injury to the public service. Gen. Hancock was presented in contrast and of him Bayard said: The bright light of public scrutiny, the fierce [illegible] of party animosity has been turned upon the spotless armor of his private and public character, and no flaw or stain has been discovered. Of his associate on the ticket, William H. English, it was said that his untarnished character as a man and statesman are all in accord with the prominence of form which our success will accomplish. Bayard closed as follows: Before the American people to-day arraign the republican party as it is now led, a disorganized and destructive to the welfare, prosperity and wise government of the country. In the present contest they have their hopes on the passions of a war long since ended and the fruits of whose success being unity and peace and concord the American people are entitled to enjoy, and for the coming triumph of the conservative and national democracy will be so. Thousands of men were in line and perhaps a hundred thousand witnessed the parade. Democrats are rejoicing to-night over the successful ratification of their union.

San Francisco, Sept. 24.—The schooner *Greyhound* brings news of the revolt of the natives against the French on the island of Dominica of the Marquesas group. Several whites and natives were killed. The white inhabitants fortified themselves as well as possible, but were on the point of surrendering when relieved by a French gunboat from Nukahiva. The insurrection has been suppressed.

Dismal Report from the North.

San Francisco, Sept. 24.—The bark *Legal Tender* has arrived from the Arctic regions. She brings no news of the *Jeanette* or the missing whalers, and reiterates previous reports of the severity of the season in the north, and the probability of loss of the whalers.

Thinks the "Jeannette" all Right.

San Francisco, Sept. 24.—G. N. Bartlett, one of the largest owners of whaling ships of New Bedford, is now in the city. Regarding reports brought from the Arctic by the bark *Legal Tender* he expresses the decided opinion that there is no hope for the safety of the whaling barks *Mount Wollaston* and *Vigilant*, but that there is no reason to doubt that the *Jeannette* has made a winter harbor at Wrangel Land, and that she is doubtless all right. His advices are to the effect that the whaling fleet has had an unusually prosperous season.

California State Fair.

Sacramento, Sept. 24.—It is estimated that 10,000 people attended the fair to-day. The event of the day was a review of stock by the president and party. This took place in the forenoon. The president stood on the directors' stand and expressed his admiration of the fine herds of cattle. The races this afternoon were a spirited running race, mile dash, for 2 year olds. It was won by Ned Collier. Time—1:45¼. A dash of 1⅝ miles was won by Mattie Glenn in 2:52¾. A 2¼ mile dash was won by Jennie B in 3:51½.

Fire in Oroville.

Oroville, Sept. 24.—A fire broke out in Chinatown last night at about 11 P. M., which swept the entire place, except a very few houses at the extreme lower end. Losses must be very heavy as a large number of bricks are burned besides any quantity of frames. It is understood that the insurance is also large.

Incendiary Work.

Auburn, Sept. 24.—At about 12 o'clock last night a newly erected wash house building in the recently burned Chinatown was destroyed by the use of giant powder or some similar explosive. Not being occupied yet, the damage was confined wholly to the building. This is the second China wash house disposed of in this manner here.

HO FOR OREGON.

Visit to the Spring Valley Mine—Off for Oregon

Chico, Sept. 24.—The presidential party left Chico this morning with a delegation of citizens for Spring Valley mine at Chroken Flat. They were received with an anvil salute and a repast was prepared for them. Preparations had been made to exhibit mining processes by Supt. Waldeyer and Louis Glass secretary of the company. Several boats had been prepared and were set off in the presence of the party, after which piping commenced showing the marvelous power of hydraulics. The party were then invited to the sluices when Mr. Waldeyer [illegible] took a handful [illegible] half [illegible] up to Mrs. Hayes. Mrs. Hayes set off one blast of 25,000 pounds of powder which made [illegible] a large [illegible]. A large crowd had assembled from various mining camps and people were profuse in [illegible] the party. After spending about an [illegible] half at the mine the party left for Chico and proceeded immediately to a car [illegible] for Redding.

IDAHO.

Fight with Escaped Convicts

B[oise] City, Sept. [illegible] convicts at work [illegible] [illegible] obtained arms and fled. Guards and soldiers pursued and a running fight followed. One convict was mortally wounded [illegible] captured. Sergeant Suttinger, Co. [illegible] cavalry was severely wounded. One of the guards and an emigrant who happened to be present were also wounded.

OREGON LEGISLATURE.

ELEVENTH BIENNIAL SESSION

[illegible]

Senate.

[illegible]

Humphrey—The state receives just four times as many books in exchange from the other states as they would send out. He opposed the amendment.

McConnell—From the secretary of state learned that it would cost over $800 to purchase these books. As to the proposition that all the members are going to read the books I do not believe that for they are not lawyers and have no time to read such books. When they require a lawyer they generally pay for their services.

Colvig—Was of the opinion that the senate had done a very wise thing in passing the original resolution giving each member a copy of these volumes, but was opposed to reconsidering the question of the amendment, and he hoped the motion would not prevail.

Siglin—I do not think the general dissemination of knowledge among laymen is a proper subject to consider at the present time. I do believe these few dollars to be spent for these books will be for the benefit of the people. I believe most of the men will read them, or else their sisters, aunts, mothers and other relatives. They will not go so much on the statutes. As a matter of economy I believe every member would read it.

The motion to reconsider the question was lost.

A message from the house announced that the house had reconsidered their action on S. C. R. 15 in regard to the employment of clerks and their salary on the committee to examine the books of the secretary of state, school superintendent and commissioners, etc., and concurred in the original resolution.

PETITIONS.

From Rev. P. S. Knight, inviting the senate to visit the mute school.

On motion of Waters it was laid on the table.

Burch—From S. W. McDowell in regard to election, be contesting the seat of Knight of Marion.

Waters moved to refer to committee on insane.

Fulton—Was sorry that the gentleman from Multnomah took that course and moved to refer to committee of the whole to meet at 7 o'clock this evening.

Burch moved to refer to committee on election.

Colvig—To refer to committee on judiciary.

Waters moved to indefinitely postpone. Adopted.

MEMORIAL.

Gates—S. J. M. 2. That a tract of public land in Oregon has been for 10 years last past and now is withdrawn from market for the benefit of the Northern Pacific Railroad Company, and whereas the even numbered sections within the limits of said grant to wit: a tract of land over 6000 square miles has ever since such withdrawal been held by the government of the United States at double minimum price thereby taxing the settlers upon such even numbered sections unjustly and without any benefit whatever in that the said Northern Pacific Railroad has failed to build any railroad in Oregon, and whereas the said act of congress granting said land has now become obsolete and the time in which said company was to have built the said railroad has expired and whereas the Oregon Railway & Navigation Company is now engaged in building a good and substantial railroad over said tract of land above referred to without subsidy of any kind, and there being no necessity for such railroad over said tract of land. Your memorialists earnestly pray that the said tract of land so withdrawn for the benefit of said Northern Pacific Railroad Company be restored to the public domain, and that the land be disposed of by the United States as though said act had not passed, that in the judgment of your memorialists the bona fide settlers upon the odd numbered sections of said tract of land who have improved the same and resided thereon should be respected in their settlements and improvements and should have the right to homestead and pre-emptions on the same without being required to make new settlement thereon, and that the time of occupancy should be taken as the time required by the act of congress providing for the disposal of such lands. As in duty bound your petitioners will ever pray. Referred to railroads.

Gates—For conveying the public grounds in Dalles City known as blocks 2, 3, 12 and 13 to the Independent Academy Association. Referred to the committee on corporations.

REPORTS OF STANDING COMMITTEES.

S. B. 2—The committee on judiciary recommended that S. B. 2, amending sections 156 and 157, chapter 16, title 1, be further amended.

Smith proposed that the amendments offered by judiciary be adopted; carried.

Colvig moved that it be engrossed and have a third reading to-morrow; adopted.

Same committee reported on S. B. 7 amending section 144, chapter 1, title 67, civil procedure, that it would not pass; adopted.

S. B. 10—To punish trespass, reported back to the senate with certain amendments.

Smith moved that they be adopted; carried.

Fulton moved to have engrossed and passed to a third reading; adopted.

CLAIMS.

S. B. 19—For relief of J. C. Frank. Committee reported favorably and recommended, as it was a just claim, that the senate adopt it with certain amendments.

Lee moved the adoption of the 1st amendment; carried.

Apperson moved the adoption of the 2d amendment; adopted.

Ordered engrossed and have a third reading to-morrow.

Stearns moved that when the senate adjourn it stand adjourned until Monday at 2 o'clock P. M.

Fulton opposed saying the senate had too much business on hand to adjourn in this way. They ought to finish up the week's business before thinking of such a thing.

Colvig moved to amend, that when the senate adjourns this evening it stand adjourned till Monday at 2 o'clock P. M.; carried.

Waters moved to adjourn; carried.

Afternoon Session.

The senate was called to order at 2 o'clock by the president, a quorum being present.

Smith moved that the amendments be adopted. The motion prevailed.

Haines moved that the bill be engrossed and passed the third reading; adopted.

Committee on education—In the absence of McConnell, chairman of the committee, Woodward presented the report recommending that certain petitions relating to local option laws be referred to special committees composed of the senators from Linn county.

Burch moved to amend to refer back to the committee on education to report by bill or otherwise.

Colvig was in favor of referring back to the committee on education.

Cochran—It seems to me that the report of the committee on education had better be taken up before it be referred back. As yet the report has not been adopted. The question is to refer. Now you cannot adopt it until you have referred.

Smith—Suppose that a clerical error had been committed, it seems to me in order to refer back to the committee on education.

Starkweather—There are two motions before the house, one to adopt the report of the committee on education, the other to refer back to the committee. I think the senate ought to take up the questions in their respective order.

Smith—I would inquire whether a question to adopt or refer takes precedence.

Bilyeu read rule 13 and asked the opinion of the president on the subject as it related to the subject under discussion.

Colvig moved to lay on the table; lost.

The report of the committee was adopted.

Committee on enrollments—Starkweather, chairman of the committee, reported that S. B. 6, to amend section 8, title 2, chapter 15 of miscellaneous laws, in the matter of partition of fences, was properly engrossed; also that S. B. 25, to amend sections 8, 10, 11, [illegible], 31, 37, 43 and 46, chapter 4 of miscellaneous laws, relating to common schools; section—that section [illegible] said act pertaining to public schools, approved Oct. 18, 1878, amendatory of section 43, chapter 4, of miscellaneous laws be amended so as to read as follows, to wit: Any citizen of this state of all be entitled to vote at a school meeting who is 21 years of age and has resided in the district thirty days immediately preceding the meeting, provided that upon a proposition to levy a tax for school purposes the voter shall be required to possess property within the district subject to assessment and taxation. [illegible]

Select committee, Colvig, Hendricks and McConnell reports [illegible]

Colvig moved it be adopted; adopted; also that it be engrossed and read third time to-morrow; adopted.

Select committee—Smith, Bilyeu, Humphrey [illegible] chapter [illegible] of Oregon.

Smith moved to suspend the rules and read first time; [illegible].

The special committee composed of Colvig, Fulton and Simon reported [illegible]

Colvig moved that the report be adopted; carried.

Colvig moved that the bill be engrossed and read a third time to-morrow [illegible].

[illegible]

BILLS READ FIRST TIME.

S. B. 82—[illegible] asked the unanimous consent of the [illegible]

[illegible]

House.

[illegible]

Wadsworth had been instructed by the platform of the convention of his county and it was in opposition to the amendment.

Upon the vote on the amendment the ayes and noes were called.

Ayes—Beebe, Biles, Bird, Ford, Galloway, Geer, Harpole, Kelly (Umatilla), Laughlin, Lawrence, Patterson (Polk), Plummer, Prosser, Rinehart, Savage, Scott, Smith (Jackson), Stanley, Stearns, Taylor, Wilson, Worcester, Yates, Mr. Speaker.

Noes—Barnard, Barrett, Blevans, Caldwell, Chamberlain, Collard, Craig, Dawson, Durham, Galloway, Geer, Harpole, Hodgkins, Kelly (Mult.), Meyer, Minto, Montgomery, Morris, Newman, Parker, Patterson (Wash.), Paul, Payne, Pipes, Schooling, Sharp, Shelton, Smith (Marion), Smith (Wash.), Spence, Thompson, Tuttle, Wadsworth, Waggoner, Wallace, Wilbur, Will, Zumwalt.

Absent—Brockway, Hodgkins.

So the amendment was lost.

The report was then adopted.

Chamberlain moved the bill be ordered engrossed and made a special order for 10 A. M. next Tuesday.

Sharp moved to reconsider the vote by which the house concurred in the resolution providing for binding papers for state library.

Wilson moved to take recess till 2 P. M.

Biles moved that when the house adjourn it be until Monday, 11 A. M.

Motion was withdrawn and house took a recess till 2 P. M.

Afternoon Session.

The house met pursuant to adjournment, Mr. Speaker in the chair.

Consideration of H. B. 4, regulating the rate of interest was resumed.

Motion to engross and read third time to-morrow was carried.

Motion to reconsider the vote by which the house concurred in S. C. R. 12, providing for binding newspapers in state library prevailed.

Thompson moved that the senate be notified of the reconsideration of S. C. R. 12, by the house, and that senate be requested to return said resolution to the house for further consideration; carried.

Bird offered S. J. M. 1, asking congress to grant to the Oregon state library such books, documents, etc., as can be spared from the congressional library; adopted.

Laughlin offered H. R. [illegible] authorizing the committee to visit and inspect the penitentiary, to summon and compel the attendance of witnesses and employ a clerk; adopted.

Yates introduced H. R.—Resolved, That a committee of five members of this house be appointed by the speaker to examine into and adjust the matters now pending in actions against the late secretary of state and his sureties upon such a basis as shall be just to all parties interested and report the same as [illegible] or otherwise. Said committee shall hear evidence and arguments when offered; upon motion adopted.

Thompson said that the matters referred to in the resolution were in the hands of the court and to appoint a committee to make a public investigation would be improper and out of taste. A committee would have no power to compel witnesses to testify. The ex-secretary and his bondsmen could have all these matters investigated in the courts and nowhere else.

Barrett agreed with the last speaker Thompson and was willing to let the courts settle it. He did not want to shield the ex-secretary from the consequences of his wrong-doing.

Taylor and Minto both opposed the adoption of the resolution.

Wadsworth from the joint committee on revision of the school law reported that the committee had prepared a bill which would be presented in the senate.

Amendments to H. B. 7, reported by the committee on counties, were, on motion of Thompson of Lane, adopted.

Newman offered the following resolution:

Resolved by the house, the senate concurring, That the senate meet the house in joint convention in this chamber at 7 o'clock P. M. on the 28th inst. for the purpose of meeting Mr. P. S. Knight, teacher of the deaf-mute school, and his pupils that he may present his mode of instruction by exercises on the blackboard. Adopted.

WASHINGTON COUNTY FAIR.

FRIDAY—FIFTH AND LAST DAY.

Jim Merritt Wins the Free-for-all Running Race and Kisber the Trot.

[REGULAR CORRESPONDENCE OF THE OREGONIAN.]

FAIR GROUNDS NEAR HILLSBORO, September 24, 1880.

The weather to-day has been delightful and the attendance good. The races were the most interesting of this year. The trot was sandwiched between the heats of the running race and the excitement was not permitted to flag.

For the running race, mile and repeat, purse $400, Scoggins & Powers named Jim Merritt and L. Knott named Flora A. The judges were J. F. Bybee, Wm. Bingham and M. O. Lownsdale. Pools sold $10 to $9 on Merritt. More interest was felt in the race than any other of the fair. Merritt won choice of positions. Both horses were in splendid trim. The track was heavy, but nearly free from mud. The mare was ridden under a pad, while Merritt carried a saddle. The horses got off at the first trial, Merritt leading slightly. At the first turn he made a motion as if to fly the track, and the jockey, to check it, brought him nearly to a stand. Flora, in the meantime, gained three lengths, which she increased to five at the half which was made in 55. "The horse will be distanced," was the exclamation all round. He gained slightly on the mare around the turn, and as they entered the homestretch Merritt let himself out, overtaking the mare about two hundred yards from the stand and gaining at every jump. Both came in under the whip, Merritt one length ahead. Time, 1:54.

Second heat was a good start. The mare led by two lengths to the half mile, which she passed in 56¼. She continued in the lead until half way down the home stretch, when under sharp whipping Merritt passed her, retained his lead and won by a length in 1:54½.

Entries for the trot, two miles and repeat, free for all having failed to fill, a match for $150 a side between Kisbar and Startle was arranged. Redmond and Smith named the former, and Robinson Bros., the latter. Geo. W. Leihy having made suitable amends to the society for the action of last year was restored to all former privileges, and drove Startle. Kisber won the pole. After two false starts, the horses got off, Startle having two lengths advantage. The heat was as fine an exhibition of trotting, if not the finest ever seen in Oregon. Neither of the horses left their feet during the two miles, but moved earnestly and zealously, straining every nerve. At the first half mile, made in 1:21, Startle led by four lengths. Coming around the turn, Kisber put in some wonderful strides and collared Startle just after entering the stretch. He gained steadily, and passed under the wire in 2:41½ pressed closely by Startle. For the next three quarters there was not a difference at any time of more than half a length between them. On the home stretch, Kisber gained inch by inch and took the heat in 5:24, Startle's nose at his sulky.

In the second heat, Startle led for the first mile, but when he had passed under the wire made a bad break, which he repeated farther on, losing considerably. He had recovered the lost ground when the third half was reached, and the horses were well together on the last turn. As they entered the home stretch, Startle left his feet, giving Kisber a lead of two lengths which he maintained to the end, winning the heat and race. Time, first half 1:21, mile 2:42½, two miles 5:29.

FATE OF THE FRANKLIN PARTY.

Evidences of a Horrible Death Found by the Schwatka Expedition—Their Records Forever Lost.

[SPECIAL TO THE OREGONIAN.]

New York, Sept. 24.—The *Herald* publishes a letter of a correspondent who accompanied the Schwatka expedition to King William's Land. The story refers more particularly to incidents of the great sledge journey. This is supplemented however by the discovery of relics and examination of native witnesses, which led to the conclusion that the fate of the officers and crew of the *Erebus* and *Terror* was terrible even to the utmost limit of the imagination, and that the records of the Franklin expedition are lost beyond recovery. Old men and woman of the Esquimaux tell the story of those who were doubtless the last survivors of these unfortunate vessels with minuteness of detail and evident truthfulness which place their fate beyond doubt. Of what became of their great leader and of a large number of men who constituted the crews nothing could be discovered. Only a small party of officers, black about the mouth with no flesh on their bones is seen dragging a boat across the ice, and then they disappear and nothing more is seen of them until their skeletons are found under their boat and in a tent, a prey to wild beasts and with dreadful evidences that they had been driven to feed on the weaker of their companions before finally yielding to starvation and cold. Such is the sad conclusion to which the discoveries of this expedition lead. That the records of the Franklin expedition were with this party is also painfully evident from the testimony of natives, who naturally considered them of no importance, and by whom they were allowed to lie around as playthings for children and eventually destroyed.

DEMOCRATIC RATIFICATION.

A GREAT MEETING IN NEW YORK.

Speeches by Senator Bayard and others, and Letters from Hancock and English.

SPECIAL TO THE OREGONIAN.

NEW YORK, Sept. 24.—The great democratic mass meeting last night was perhaps the most imposing political demonstration that has ever taken place in this city. Union square and adjoining streets and avenues were literally jammed with people, and all about was brilliantly illuminated. The principal meeting was in Tammany hall, which was packed with a most enthusiastic audience. John Kelly called the meeting to order and was greeted with uproarious applause. He introduced Daniel Dougherty of Philadelphia, who made an eloquent opening address.

Irving hall was not less crowded than Tammany hall and enthusiasm just as wild. John McKeon presided and read the following dispatch from H. M. Plaisted, Maine:

"Thanks for invitation to be present at your ratification meeting over the victory of our plain people who believe our government established to protect labor and that it should confine itself to equal protection, equal benefits, equal privileges and as heaven does its rains shower its favors alike upon all, high and low, rich and poor, in the end that it may ever rest in interest of all and in love of all. Our victory will not be counted out. It has come to stay.

H. M. PLAISTED, Bangor."

Representative Waddell of North Carolina and others made speeches. Senator Wallace of Pennsylvania was presented to the crowd from a platform in the open air and excused himself from speaking in consequence of sore throat. Senator Francis Kernan of New York followed and said that no portion of the people of the United States had deeper interest in the character of the men to be selected at the next election to make laws, or the character of the man to be selected as president of the United States, than the people dwelling in this city. They were interested because they desire to do business with every state in the union. The republican party had failed in its duty to the best interests of the country by keeping alive bad feelings between the people of one section against another. Ex-Gov. Lee Carroll also made a speech. Also Wade Hampton made a speech of some length. An attractive part of the proceedings was a brilliant torchlight procession.

August Belmont was chosen chairman of the principal meeting. His speech was devoted in the main to consideration of the claim that the present prosperity of the nation is due to republican legislation, and cited as a significant fact that only in 1879, with the house and senate both democratic, were we enabled to float our 4 per cent bonds at par.

"The American people do not owe their present prosperity to either the republican or democratic law makers. They owe it first and above all, to the blessings of the Almighty who has given them unbounded crops with which to feed the famishing masses of Europe, next, to forced economy and retrenchment in private and public expenditure rendered necessary by the disasters of 1873, and lastly to the thrift, energy and skill of our planters, farmers and mechanics, which have made us large exporters to the marts of the world, not only of the surface produce of our soil, but also of works of American invention and skill."

Resolutions were read and adopted, and letters of regret because of absence of writers were announced.

From Gen. Hancock: "Dear Sir—Please express my thanks to the committee for the invitation to be present at the grand meeting to be held in New York city on the 23d inst. If circumstances permit, it will give me pleasure to attend, but my occupations and engagements are such that it is not probable I shall be able to do so. If I should I will take the liberty of informing you hereafter."

Ex-Gov. Hendricks writes: "I am very confident that New York and Indiana will both elect democratic electors and that the national democratic ticket will be elected by a vote that no fraud can overcome."

From Senator Hill of Georgia: "I am not entirely satisfied that addresses by southern speakers at the north will aid the party. I am quite sure that some which have been made have not aided it. I much prefer not to speak, unless it is assured that I will at least do no harm, but my own opinion is that a well considered speech delivered by me to a quiet audience in Boston might do good."

From David Davis: "Domestic causes which need no explanation exclude me from taking part in any public meeting at this time. I regret not being able to give no more satisfactory reply to your invitation. Congratulations on restoration of harmony in New York and victory in Maine."

From Samuel J. Tilden: "Though it may not be practicable for me to avail myself of your invitation to attend a meeting to be held on the 23d inst in support of Hancock and English, I most cordially sympathize with its objects. Nor do I permit myself to doubt that the country is prepared to sustain all legitimate efforts to secure a better administration of the federal government."

Senator Bayard was then presented to the vast throng and was received with long and continued applause and waving of hats and handkerchiefs. He made a long speech, discussing many questions which enter into the presidential contest. He said that time has changed the population of the south as well as of the north. A new generation of men and women who could have had but little to say or do in relation to the war of 1861, now occupies and controls the country. Of the charge that in the event of democratic success, the war debts of the south, loss of slaves and claims for other losses growing out of the war and pensions for their wounded, would be paid out of the United States treasury, Bayard said that the best reply to all these wild, malicious and foolish assertions, is that such payments would be impossible. The good sense or honesty of that man is seriously to be impugned who does not read in the plain mandate of the fourteenth amendment, the absolute seal of illegality and nullity set upon all such claims. Having been for a number of years in Washington, I have learned who were the real beneficiaries of the claims paid by congress in the past ten years, of the class styled "southern claims," and in almost every instance a great part of the money flowed into the pockets of northern and very loyal assignees, who had bought up these claims for a song from their impecunious southern owners. At a great gathering of republican ladies and gentlemen last week there were lawyers, bankers and statesmen, who had more money in their pockets from southern claims allowed by republican commissioners and republican courts, than the poor south ever received since the war or ever will receive from now until the day of judgment.

The cry of "solid south" received attention, and Bayard said that the south is not solid for anything the north need apprehend, and its solidity has no feature and no result unfriendly to the prosperity of the entire union. In relation to the condition of business and society in the southern states Bayard quoted freely from a paper by Edward Atkinson of Massachusetts, and published in the Fortnightly Review, in which appears these passages:

"Total production of gold and silver by mines in the mountains and rivers of the whole world for 27 years has been $4,400,987,000 and the American cotton crop for the last ten years amounted to from $2,500,000,000 to $3,000,000,000 in gold values. Since 1865 an industrial revolution has occurred and in the states made free by the war such as never before occurred. On the surface there has appeared to be misgovernment, fraud, political disturbance, want of stability and sometimes violence, but underlying this surface apparently so deeply agitated great industrial forces have been quietly and surely working to the end indicated by great crops of cotton, the ten last crops marketed exceeding ten anti-war crops by nearly 6,500,000 bales, while the crop now being marketed will be far the largest ever grown. Violence and anarchy cannot have been the rule in a section that has produced greater crops for sale and has at the same time been more self sustaining than ever before in its history. Speaking of the prosperity of the nation and of the production of tobacco, sugar and rice, Bayard said: "And yet our domestic production of the last two articles is only in the southern states and tobacco is chiefly produced there. Of the tobacco crop two fifths is retained and manufactured in the United States and from it over $38,000,000 revenue has been derived the last fiscal year.

With the executive power of this government in the hands of an administration just and friendly to every section, how trifling will ever the great present be to the great future of prosperity that awaits us. Bayard referred to his visit to South Carolina and said: "If any man who was unwilling to see truth had been at my side during my visit to South Carolina he would have come away assured that industry was the rule among the people and that the relations of races were quietly and happily regulating themselves, and but for the devilish work of selfish and unscrupulous politicians of the radical party there never would be any such difficulty among the people there. The claim that the resumption of specie payments were the work of the republican party received considerable attention, and Bayard said that not until Bristow was placed at the head of the treasury was any suggestion or attempt made to resume specie payments.

He declared that the resolutions formerly introduced by himself to hasten resumption were buried in Sherman's committee. Of Garfield Bayard said that he was chairman of the committee on appropriations when corruption and extravagance ran riot in Washington City, when Boss Shepherd and his crew were drawing tens of millions to lay rotten pavements in those streets with false measurements, with double prices and with all the carnival of roguery from 69 until '75—then the democratic majority put an end to the lobby and congressional plunder—where was the voice and vote of Garfield? If he sought reform he did it so quietly as never to be heard. I leave the reports of committees controlled by men of his own party association to determine his personal connection with disreputable transactions and only say that if we accept their account of Garfield we may well say: "Save me from such a friend of mine." [illegible] Arthur was collector of the port of New York when under the [illegible] [illegible] his [illegible] [illegible] most private [illegible] [illegible] regular practice and custom [illegible] appointments were mere counters in exchange for political [illegible]. Collector Arthur was dismissed from office because of these abuses [illegible] [illegible] would have been [illegible] [illegible] Gen. Hancock was presented [illegible] and [illegible] of him Bayard said: The [illegible] light of [illegible] scrutiny the [illegible] of party animosity has been [illegible] [illegible] his private and public character, and no flaw or stain has been [illegible] [illegible] it was said that [illegible] [illegible] man and statesman [illegible] with the people [illegible] in which our [illegible] [illegible] Bayard closed as follows: [illegible] the American people to-day arraign the republican party as [illegible] [illegible] to the welfare [illegible] and wise government of the country. In the present contest they base their hopes on the passions of a war long since ended and the [illegible] of whose success [illegible] and peace and concord the American people are entitled to enjoy, and in [illegible] triumph of the conservative and national democracy will be so. Thousands of men were in line and perhaps [illegible] witnessed the [illegible]. Democrats are rejoicing to-night over the successful ratification of their union.

The idea of convening the chamber before the usual time was rejected. The foreign policy of the ministry is honorable peace, such as befits one of the leading powers of the world.

Regarding reports brought from the Arctic by the bark Legal Tender he expresses the decided opinion that there is no hope for the safety of the whaling barks Mount Wollaston and Vigilant, but that there is no reason to doubt that the Jeannette has made a winter harbor at Wrangel Land, and that she is doubtless all right. His advices are to the effect that the whaling fleet has had an unusually prosperous season.

MEMORIAL.

Gates—S. J. M. 2 That a tract of public land in Oregon has been drawn from market [illegible] Pacific Railroad Company [illegible] hundred [illegible] with a tract of land [illegible] since such [illegible] of the United States [illegible] by taxing the settlers upon such [illegible] tions unjustly and without any benefit whatever in that the said Northern Pacific Railroad has failed to build any railroad in Oregon, and whereas the said act of congress granting said land has now become [illegible] and the time in which said company was to have built the said railroad has expired, and whereas the Oregon Railway and Navigation Company is now engaged in building a good and substantial railroad over said tract of land above referred to without subsidy of any kind, and there being no necessity for such railroad over said tract of land, your memorialists earnestly pray that the said tract of lands withdrawn for the benefit of said Northern Pacific Railroad Company be restored to the public domain and that the land be disposed of by the United States as though said act had not passed; that in the judgment of your memorialists the bona fide settlers upon the odd numbered sections of said tract of land who have improved the same and resided thereon should be respected in their settlements and improvements and should have the right to homesteads and pre-emptions on the same without being required to make new settlement thereon, and that the time of occupancy should be taken as the time required under the act of congress providing for the disposal of said land. As in duty bound, your petitioners will ever pray. Referred to railroads.

Gates—For conveying the public grounds in Dalles City known as blocks 28 [illegible] to the [illegible] Academy Association; referred to the committee on corporations.

REPORTS OF STANDING COMMITTEES.

S. B. [illegible]—The committee on judiciary recommended that S. B. [illegible] amending sections [illegible] be further amended.

Smith proposed that the amendments offered by judiciary be adopted; carried.

Colvig moved that it be engrossed and have a third reading to-morrow; adopted.

Same committee reported on S. B. [illegible] amending section 144, chapter 1, title 6, civil procedure, that it would not pass; adopted.

S. B. 10—To punish trespass, reported back to the senate with certain amendments.

Smith moved that they be adopted; carried.

Fulton moved to have engrossed and passed to a third reading; adopted.

CLAIMS.

S. B. 19—For relief of J. C. Frank. Committee reported favorably and recommended, as it was a just claim, that the senate adopt it with certain amendments.

Lee moved the adoption of the 1st amendment; carried.

Apperson moved the adoption of the 2d amendment; adopted.

Ordered engrossed and have a third reading to-morrow.

Stearns moved that when the senate adjourn it stand adjourned until Monday at 2 o'clock P. M.

Fulton opposed, saying the senate had too much business on hand to adjourn in this way. They ought to finish up the week's business before thinking of such a thing.

Colvig moved to amend that when the senate adjourns this evening it stand adjourned till Monday at 2 o'clock P. M.; carried.

Waters moved to adjourn; carried.

Afternoon Session.

The senate was called to order at 2 o'clock by the president, a quorum being present.

REPORT OF STANDING COMMITTEES.

Corporations—In the absence of Tyson, chairman, Woodward presented S. B. 1 to incorporate the town of Pendleton, Umatilla county, with the amendments recommended.

Smith moved that the amendments be adopted. The motion prevailed.

Haines moved that the bill be engrossed and pass to the third reading; adopted.

Committee on education—In the absence of McConnell, chairman of the committee, Woodward presented the report recommending that certain petitions relating to local option laws be referred to special committees composed of the senators from Linn county.

Burch moved to amend to refer back to the committee on education to report by bill or otherwise.

Colvig was in favor of referring back to the committee on education.

Cochran—It seems to me that the report of the committee on education had better be taken up before it be referred back. As yet the report has not been adopted. The question is to refer. Now you cannot adopt it until you have referred.

Smith—Suppose that a clerical error had been committed. It seems to me in order to refer back to the committee on education.

Starkweather—There are two motions before the house, one to adopt the report of the committee on education, the other to refer back to the committee. I think the senate ought to take up the questions in their respective order.

Smith—I would inquire whether a question to adopt or refer takes precedence.

Bilyeu read rule 13 and asked the opinion of the president on the subject as it related to the subject under discussion.

Colvig moved to lay on the table; lost.

The report of the committee was adopted.

Committee on engrossment—Starkweather, chairman of the committee, reported that S. B. 6 to amend section 8, title 2, chapter 17 of miscellaneous laws, in the matter of partition of fences, was properly engrossed; also that S. B. [illegible] to amend sections 8, 10, 11, [illegible] and 4 chapter 4 of miscellaneous laws, relating to common schools, [illegible] and not part [illegible] approved [illegible] [illegible] chapter [illegible] miscellaneous laws [illegible] as follows, to wit:

[illegible]

Thompson said that the matters referred to in the resolution were in the hands of the court and to appoint a committee to make a public investigation would be improper and out of taste. A committee would have no power to compel witnesses to testify. The ex-secretary and his bondsmen should have all these matters investigated in the court and nowhere else.

Barrett agreed with the last speaker, Thompson, and was willing to let the court settle it. He did not want to shield the ex-secretary from the consequences of his wrongdoings.

Taylor and Minto both opposed the adoption of the resolution.

Wadsworth from the joint committee on revision of the school law reported that the committee had prepared a bill which would be presented in the senate.

Amendments to H. B. [illegible] reported by the committee on counties were, on motion of Thompson of Lane, adopted.

Newman offered the following resolution:

Resolved by the house, the senate concurring, That the senate meet the house in joint convention in this chamber at 7 o'clock P. M. on the 28th inst. for the purpose of meeting Mr. P. S. Knight, teacher of the deaf-mute school, and his pupils, that he may present his mode of instruction by exercises on the blackboard. Adopted.

WASHINGTON COUNTY FAIR.

FRIDAY—FIFTH AND LAST DAY.

Jim Merritt Wins the Free-for-all Running Race and Kisber the Trot.

[REGULAR CORRESPONDENCE OF THE OREGONIAN.]

FAIR GROUNDS, NEAR HILLSBORO,
September 24, 1880.

The weather to-day has been delightful and the attendance good. The races were the most interesting of this year. The trot was sandwiched between the heats of the running race and the excitement was not permitted to flag.

For the running race, mile and repeat, purse $400, Scoggins & Powers named Jim Merritt and L. Knott named Flora A. The judges were J. F. Bybee, Wm. Bingham and M. O. Lownsdale. Pools sold $10 to $9 on Merritt. More interest was felt in the race than any other of the fair. Merritt won choice of positions. Both horses were in splendid trim. The track was heavy but nearly free from mud. The mare was ridden under a pad while Merritt carried a saddle. The horses got off at the first trial, Merritt leading slightly. At the first turn he made a motion as if to fly the track and the jockey, to check it, brought him nearly to a stand. Flora, in the meantime, gained three lengths, which she increased to five at the half which was made in 55. "The horse will be distanced," was the exclamation all round. He gained slightly on the mare around the turn, and as they entered the homestretch Merritt let himself out, overtaking the mare about two hundred yards from the stand and gaining at every jump. Both came in under the whip, Merritt one length ahead. Time, 1:54.

Second heat was a good start. The mare led by two lengths to the half mile, which she passed in 56½. She continued in the lead until half way down the home stretch, when under sharp whipping Merritt passed her, retained his lead and won by a length in 1:54½.

Entries for the trot, two miles and repeat, free for all having failed to fill, a match for $150 a side between Kisber and Startle was arranged. Redmond and Smith named the former and Robinson Bros., the latter. Geo. W. Leihy having made suitable amends to the society for the action of last year was restored to all former privileges, and drove Startle. Kisber won the pole. After two false starts, the horses got off, Startle having two lengths advantage. The heat was as fine an exhibition of trotting, if not the finest ever seen in Oregon. Neither of the horses left their feet during the two miles, but moved earnestly and zealously, straining every nerve. At the first half mile, made in 1:21½, Startle led by four lengths. Coming around the turn, Kisber put in some wonderful strides and collared Startle just after entering the stretch. He gained steadily, and passed under the wire in 2:41½, pressed closely by Startle. For the next three quarters there was not a difference at any time of more than half a length between them. On the home stretch, Kisber gained inch by inch and took the heat in 5:24, Startle's nose at his sulky.

In the second heat, Startle led for the first mile, but when he had passed under the wire made a bad break, which he repeated farther on, losing considerably. He had recovered the lost ground when the third half was reached, and the horses were well together on the last turn. As they entered the home stretch, Startle left his feet, giving Kisber a lead of two lengths which he maintained to the end, winning the heat and race. Time, first half 1:21; mile 2:42½; two miles 5:29.

FATE OF THE FRANKLIN PARTY.

Evidences of a Horrible Death Found by the Schwatka Expedition—Their Records Forever Lost.

[SPECIAL TO THE OREGONIAN.]

NEW YORK, Sept. 24.—The Herald publishes a letter of a correspondent who accompanied the Schwatka expedition to King William's Land. The story refers more particularly to incidents of the great sledge journey. This is supplemented however by the discovery of relics and examination of native witnesses which led to the conclusion that the fate of the officers and crew of the Erebus and Terror was terrible even to the utmost limit of the imagination, and that the records of the Franklin expedition are lost beyond recovery. Old men and women of the Esquimaux tell the story of those who were doubtless the last survivors of these unfortunate vessels with minuteness of detail and evident truthfulness which place their fate beyond doubt. Of what became of their great leader and of a large number of men who constituted the crews nothing could be discovered. Only a small party of officers black about the mouth, with no flesh on their bones is seen dragging a boat across the ice, and then they disappear and nothing more is seen of them until their skeletons are found under their boat and in a tent, a prey to wild beasts and with dreadful evidences that they had been driven to feed on the weaker of their companions before finally yielding to starvation and cold. Such is the sad conclusion to which the discoveries of this expedition lead. That the records of the Franklin expedition were with this party is also painfully evident from the testimony of natives, who naturally considered them of no importance, and by whom they were allowed to lie around as playthings for children and eventually destroyed.

SATURDAY MORNING, SEPT. 25, 1880

LEGISLATIVE NOTES

Several bills have been introduced in either house relating to fees of sheriffs and county clerks. One by Mr. Simon seems most judicious of all, since it proposes to require of all sheriffs and county clerks a classified statement of their fees to be returned at stated periods to the secretary of state. When the legislature shall have means of knowing what the fees in the different counties are under existing laws, then it will be able to enact such proper legislation as the subject requires. Besides, it is not likely that any legislation to reduce the fees upon an arbitrary method would be suffered to pass, as the officials interested would use all their influence to defeat it. The best, probably, that could be done, is to lay the foundation for reduction, according to the state of the case in each county, to take place at a future time.

Senate bill number thirty-six has for its object the removal of censorship of mails to and from the inmates of the insane asylum, and provides that in case of the death of any inmate a coroner shall be summoned, and adjudge the case in the usual way—further provision being that the testimony of inmates can be received. From positive information and the highest authority we learn that such laws when passed in other states have been found absolutely impracticable, and unsuited to the condition of the inmates. Some censorship of the letters written by insane patients is a necessity, and if the legislature shall see fit to remove it from the officers of the asylum it should at least, as has been done in some states, be reserved to a committee of examination acting in the same capacity. There is not a skilled superintendent in the country who would undertake the care of an institution for a day where he would be subjected to the irresponsible charges, vexatious inquiries and endlessly expensive investigations which always follow in the wake of removed censorship. Wherever legislatures have been induced to pass such bills they have in some cases been repealed and in others radically modified, while in others they stand as inoperative and null. It would seem the part of wisdom for our legislature to substitute for the present bill a resolution constituting a committee of inquiry or correspondence, who, in the interval before the next session, could inform themselves of the exact state of legislation upon the subject in other states and collect all the evidence, which is said to exist in abundance, as to the pernicious effect of the proposed reform. The section requiring a coroner and jury to be summoned in every case of death is an entirely needless and expensive process of accomplishing what an examining committee, or the coroner acting under existing laws, could do, if suspicious circumstances existed. This bill is framed on the altogether insane notion that the keeper of the asylum wants to get his patients out of the way; when in fact he has money at stake in keeping them as long as he can.

In his report on the penitentiary, recently submitted to Gov. Thayer, Superintendent Bush stated that he regarded the office of superintendent as an unnecessary one, except as inspector or commissioner, and he therefore recommended that it be abolished and a board of inspectors substituted. Senator Knight of Marion a few days ago introduced a bill to create such board of inspectors. It proposes to enact that three persons shall be chosen by the legislative assembly in joint convention, who are to hold their office as members of said board for two years, under bonds of $5000 each. Their duties are outlined in the bill. Briefly, they are to have power to control and govern the penitentiary, to make contracts for letting the labor of the convicts, to purchase supplies for the prison, to receive and sell all articles manufactured by convict labor, and to exercise general superintendence over the prison and its business. The inspectors are to be allowed one clerk, and empowered to appoint a warden, deputy warden, physician and guards. The salary proposed for the inspectors is six hundred dollars a year each, and for the clerk and physician five hundred each. And it is proposed that the act go into effect on the first Monday of November next.

Ever since Amis of queue bill fame started in on the Chinaman ten or a dozen years ago, various propositions have been submitted at almost every session of the legislature to worry the gentleman of celestial celebrity; and on this occasion Senator Siglin of Coos is the man who fixes his lance and starts upon a tilt to ride John down. His effort is in the form of a bill for "an act to license aliens to do business and carry on lucrative occupations in the state of Oregon." It proposes that any alien who carries on business of any kind in this state shall obtain a license therefor from the county in which he is domiciled, paying one dollar a month for the benefit of such county; that all contracts made with an alien who has not obtained such license shall be void; that the penalty of neglect to obtain such license shall be twenty-five dollars, but that the act shall not apply to any alien who shall have declared his intention to become a citizen of the United States. The Chinaman is mentioned nowhere in the act, but of course it is meant only for him.

Mr. Will of Clackamas has offered a bill for a moderate appropriation for construction of a fish way or ladder at Willamette falls. This is a matter which ought to have received the attention of the legislature long ago. It will open a way for natural propagation of salmon which would be far more more effective than any effort by artificial means likely to be carried out soon.

One of the longest bills yet offered is senate bill number three by Mr. Simon of Multnomah, entitled "a bill for an act for relief of insolvent debtors, for protection of creditors and punishment of fraudulent debtors," etc. It is in the nature of a state bankrupt law, and from its extended provisions it is evident that great care has been taken in preparation of it.

Perhaps the largest number of bills are those proposing to amend certain parts of the code and miscellaneous laws, as compiled by Judge Deady and Hon. Lafayette Lane. Most of these bills seem designed to meet special views or serve special objects. Too much legislation of this kind is very possible.

BUSINESS ISSUES.

In the *Atlantic Monthly's* table of contents for October we have an article on "Business Issues of the Presidential Canvass." It is a model of clear statement and temperate yet forcible discussion, opening thus: "Probably the most important fact developed by the progress of the presidential canvass is the unwillingness of the great majority of the business community in the north to let the government pass into the hands of the democrats. Merchants, manufacturers, bankers, transporters, and others who have to do with the larger affairs of trade and finance distrust the democratic party, and are taking an unaccustomed interest in the republican campaign. The excellent record of General Garfield on all business questions which have come before congress during the past twenty years has doubtless something to do with the attitude of these men, contrasting, as it does, very strongly with General Hancock's want of any record which could be appealed to for controlling his course if he should be elected. But the positively bad record of the democratic party has more influence in shaping their views than the known opinions of one candidate and the lack of known opinions of the other."

The cause of the unwillingness of the great majority of the business community to let the government pass into the hands of the democrats is not far to seek. So soon as the war ended the democratic party "began to devise schemes for preventing the government from dealing honorably with the public creditors. Its principal scheme "had for its object the payment of United States bonds in a depreciated, irredeemable paper currency. The democratic party went into this scheme almost *en masse*. The national democratic convention of 1868 adopted it." That scheme was beaten and then came the "fiat swindle." "It is no exaggeration to say that a large majority of the democrats in the south and west favored this rascally scheme." After this had in its turn been "fairly fought down by the republicans in congress and at the elections" the next attempt by the democrats was an attack on the resumption act. Thus "one idea has run through all the financial schemes that the democratic party has broached since 1867,—to dilute and cheapen the currency in order that public and private debts may be discharged in money that will not be worth what it pretends on its face to be worth." Again: "So long as there is but one party in the south, and that the party which carried on the rebellion, the care of the public debt, and of the paper currency which is a part of that debt, cannot safely be confided to an administration elected by southern votes and supported by a congress controlled by southern members. This consideration has taken strong hold of the business classes throughout the north, and will have a great deal to do in determining the result of the present canvass." Moreover, there can be no doubt but the eastern and middle states are attached to the principle of a protective tariff, to which the democratic party is unquestionably less favorable than the republican, and this unites against the democratic party large classes of people in the manufacturing states. Further, the controlling element of the democratic party is hostile to the existing system of internal revenue. "The taxes on whisky and tobacco are exceedingly unpopular at the south, and there is probably no candidate for congress now running in that section who has not pledged himself to vote for their reduction, if not for their entire repeal." But if these taxes are abandoned they must be replaced by other taxes levied on articles of necessity, which certainly would be bad policy. These are some of the reasons given for the unwillingness of the business community, or the larger part of it, to see the government go into the hands of the democratic party. To these reasons might be added the certainty of the corruption which would follow the general scramble for office and the loss thereby to the public service.

SPECIOUS ASSERTIONS.

In their speeches at the New York democratic ratification meeting, reported to-day, Senator Bayard and other speakers defended their party with the usual arguments. It was claimed that the country wants better administration of the national government, and that the democratic party would give it. But wisely enough, no attempt was made to show in what particulars the national government is not now administered well, or in what direction improvement could be expected from the democratic party. It is admitted on all hands that the country was never more prosperous, or that its government was ever more cleanly and successfully administered, than now. Nor would it be possible to specify any subject on which the democratic party has a record that promises better administration. Democratic politicians desire a "change," of course. But even Senator Bayard can give no sound reason for it,—except that his party wants the government. Large part of these oratorical efforts is devoted to an attempt to show that no damage could be apprehended from accession of the democratic party to power. Senator Bayard insisted that his party would never pay southern claims. But is his denial conclusive? There is an immense mass of these claims which does not fall within the prohibition of the fourteenth amendment. There are claims for there funding of the cotton-tax, brought before congress at nearly every session; stores and supplies for the use of or destroyed by union troops during the war; claims for cotton or tobacco destroyed; claims for the use of or damage to property of all kinds belonging to southern men; claims for rent or damage to real estate, claims for captured or abandoned property, etc. The total is more than the entire national debt, and the southern people do most undoubtedly intend to press and do most confidently expect to secure payment of claims of this nature. Mr. Tilden wrote a letter pledging himself to resist such payment; Gen. Hancock refuses to do so. When Senator Bayard says the south is not solid for anything the north need apprehend, he is only repeating the old statement which has been made by southern leaders for more than twenty years. It is only a variation of the saying of Jefferson Davis, that "all the south wants is to be let alone." The history of the democratic party is a continuous record of these specious assertions.

The completion of this road makes an important epoch in the history of Linn county, as it will open up a large area of beautiful and fertile foothill country back of Lebanon, that heretofore was too far from market to make tilling the soil profitable." The other two, one of whom is the band leader, Prof. [illegible], are recovering.

THE SOCIAL WORLD.

A Quiet Week but Better Prospects Ahead. Wedding at Walla Walla—Local Gossip, Etc., Etc.

As usual at this season the week just closed has been without social animation. The presence of President Hayes and friends here next week will be a refreshing change, though the ceremonies of their reception and entertainment will partake of a public character. We hear it whispered that during the latter part of October an elegant residence west of the city adjoining the park will be the scene of a large and fashionable party. Gossip also has fixed a date in December for the marriage of a well known young business man with the daughter of a prominent lawyer whose engagement was announced some time ago.

Y. M. H. A. ENTERTAINMENT.

Tuesday evening the first entertainment of the series to be given by the Young Men's Hebrew Association came off at their hall. There was present a very fashionable and refined audience. The programme was introduced by a selection from "Faust" by the orchestra. The address by Mr D. Solis Cohen was replete with literary excellence and delivered with effect. This gentleman was followed by Miss Lulu Bivens with a piano solo, "Prayer from Othello," executed with the left hand with skill and delicacy. The little lady was deservedly encored. Miss Lela O'Connor next recited "How he Saved St. Michael's," and in response to a call "The Battle of Fontenoy." The violin solo by Mr Edgar E. Coursen, selection "Concerto Militaire," was an artistic performance and one of that gentleman's best efforts. Mr Harry B. Krause, a very finished and brilliant pianist, accompanied Mr Coursen and added no little to the pleasure of the evening. "The Bells" was next recited by Mr T. W. Mellis. Another air by the orchestra concluded the literary and musical part of the programme, which was succeeded by an enjoyable dance, in which all participated, till nearly midnight.

SURPRISE PARTIES.

A very pleasant surprise party was held at the residence of Capt. Geo. A. Pease on Monday, on the occasion of the fiftieth anniversary of that gentleman's birth. A number of the captain's old friends dropped in quite unceremoniously, and a very delightful evening was spent.

The Taylor street M. E. parsonage on Monday night last was the scene of a most pleasant surprise party. A bevy of sixty-six young gentlemen and ladies, members of the church and congregation, without notice and with malice aforethought, loaded with baskets of cake and freezers of ice cream, took possession from chamber to pantry. A very pleasant and long to be remembered time was experienced.

Wednesday evening a party of 30 couples visited the ship *Chandos* as a mark of their esteem for its master, Captain Emery. This gentleman being absent, the mate, being apprised beforehand of the intended visitation, was ready for the incursion and had a large table bountifully supplied prepared under the awning on the quarter deck, to which the self invited guests did ample justice. The captain arrived at a later hour, and was agreeably surprised at the merry faces clustered about his hospitable board. The party next adjourned to Handel and Haydn hall, where a social dance was initiated and kept up till 2 o'clock in the morning, when all satiated with pleasure dispersed.

THE BERRY-BOYER WEDDING AT WALLA WALLA.

[From the Walla Walla Statesman, Sept. 21st.]

St. Paul's church was filled with the *elite* of the city last night, the occasion being the marriage of Miss Amelia Berry to Mr. Chas. Boyer. The high contracting parties are well known to all of our citizens. The bride is the eldest daughter of Mr Berry, Esq., formerly of Portland, Oregon, and by her admirable and winning ways had made many friends glad to join with her in the happiness of the occasion. The groom is the eldest son of J. F. Boyer, banker and county treasurer, and is the junior member of the enterprising firm of Chapman & Boyer. The ceremony was witnessed by upwards of 200 people and was performed by Rev. L. H. Wells in an imposing and solemn manner, and in accordance with the beautiful ritual established by the Episcopal church. At five minutes past eight the organ rang out the wedding march as the bride, accompanied by her parents, the groom and the Misses Anna Boyer, Madge and Sophia Berry as bridesmaids, and Messrs Frank Parker, L. Baker and Frank Boyer as groomsmen came slowly up the aisle. The bride's dress was white organdy trimmed with creme laces and satin, shell pleatings, orange blossoms in profusion and diamond ornaments. The veil was of silk illusion fastened with an amethyst pin and orange spray. The bridesmaids' dresses were: Miss Madge Berry, white organdy trimmed with blue forget-me-nots; Miss Sophia Berry, white organdy trimmed with crushed roses; Miss Anna Boyer, white organdy trimmed with blue convolvulus. The ceremony over in church Mr. and Mrs. Chas. Boyer adjourned to the residence of J. F. Boyer, where from 8:30 till 11 o'clock a brilliant assembly of the young and old of the city vied with each other in wishing the happy couple a life of unalloyed happiness. The presents were rich and appropriate, embracing all varieties from household furniture and ornaments to silver tea sets and bank drafts. Mr and Mrs. Boyer will occupy rooms in the residence of Mrs. [illegible]hasten for a time.

MEETING OF THE HAYES RECEPTION COMMITTEE.

Pursuant to the call of Mayor Thompson, the chairman of the general Hayes reception committee, a meeting was held last evening at the council chamber at 7 o'clock.

The following members of the committee were present: Gov. Gibbs, T. A. Davis, W. M. Ladd, G. H. Durham, W. S. Newberry, Wm. [illegible], Williams, H. W. Scott, J. N. Dolph, H. [illegible], W. Kapus, C. J. McCraken.

After calling the meeting to order the chairman read the following dispatch:

[illegible] Friday, Sept. [illegible] 1880.

Mayor D. P. Thompson: Our party of sixteen persons will travel by land [illegible] Gen. Ramsay and the rest by steamer [illegible] Sherman and [illegible] expect to reach Portland about the 30th inst. R. B. HAYES.

Mr J. N. Dolph, chairman of the committee of arrangements, submitted a report. He stated that the committee had held several meetings and had concluded to adopt the following programme:

First—That a public reception be tendered the president upon some evening which will be most convenient to him.

Second—That the Mechanics Pavilion be secured if possible, and such additional decorations as needed be made.

Third—If the Mechanics Pavilion cannot be secured Turn Halle shall be secured for the reception.

Fourth—That the Vancouver band be procured to furnish music.

Fifth—That the committee escort the party from the hotel to the pavilion and introduce the citizens to the guests.

Sixth—That an address of welcome be made to the president and party, and after the response of the president the citizens shall be introduced and the party escorted to the hotel.

The committee will ascertain from the president at Roseburg when it will be his pleasure to receive the citizens, and announce it by telegraph.

Col J. McCraken and W. M. Ladd, committee to secure hall and make decorations.

Col J. McCraken to act as master of ceremonies.

The chairman was authorized to prepare an address to the president.

The committee recommend that a salute be fired upon the arrival of the president, and the bells of the city rung.

On motion the report of the committee was adopted.

Mr W. M. Ladd reported that he and Col McCraken had consulted with Mr Dekum in relation to securing the mechanics pavilion for the purpose of holding a public reception. Mr Dekum stated to them that he could not give a definite answer until next Monday. Mr Dekum stated that he thought there would be no difficulty about securing the pavilion. Mr Ladd stated that Col McCraken would take personal charge of the decoration of the pavilion or Turn Halle, if the former hall could not be secured.

Mr Kapus, chairman of the committee on music, reported that he had received the following letter in response to his note of inquiry:

VANCOUVER BARRACKS, Sept 24, 1880.

Captain William Kapus—SIR: In reply to yours of yesterday, asking if the band of the 21st infantry can be procured to take part in the ceremonies to be observed on the occasion of the visit of the president of the United States and if so on what terms, I am directed by Colonel Morrow to say that it will give him great pleasure to tender to the citizens of Portland the services of the band without cost. The occasion of the visit of the chief magistrate of the republic is likely to be a memorable one in the history of this remote section of our vast country and no pains or expense should be spared to make the arrangements worthy alike of the first citizen, for the time being, of the country and of the citizens of Portland, whose social and commercial advancement have won for them the admiration of the world. Anything the 21st infantry can do to give eclat to the occasion will gladly be done.

Permit me to say in conclusion, that as General Morrow has no public means of defraying the expenses of transportation and subsistence for the band, your committee will be compelled to bear that burden. The band will be at your service when sent for. Very respectfully,

H. H. PIERCE,
First Lieut. 21st Infantry, Acting Adjutant.

Mr Dolph stated that he was authorized by Mr R. Koehler, who could not be present at the meeting, to place a special train at the disposal of the committee, which should be used in conveying the president and party from Roseburg.

Mr R. Williams stated that it was the intention of Governor Thayer, Secretary of State Earhart, and the legislative committee to go to Roseburg and meet the president there and accompany him to Salem, where he would be escorted to the capitol and formally presented to the legislature. He made that statement so that there would be no conflict between the committees. Of course the committees ought to act in concert, and there should be no misunderstanding.

George H. Durham, chairman of the finance committee, submitted a report showing the amount collected thus far by that committee.

Gov Gibbs stated that the committee on rooms had consulted with the proprietor of the Esmond, who had made a proposition to entertain the whole party, giving them the very best apartments in the house and furnishing the table with the best that could be found in the market, at certain stipulated prices.

On motion the committee was authorized to make all necessary arrangements with Mr Brenner.

On motion of Gov. Gibbs the chairman was authorized to appoint a committee of three to make all necessary arrangements in regard to firing a salute. The chairman appointed A. C. Gibbs, Col John McCraken and William Kapus, as such committee.

On motion Col John McCraken was selected marshal of the day with power to appoint aids.

The meeting adjourned subject to the call of the president.

Excavation of Eleventh street is being pushed rapidly forward.

Mrs Loeb's building, Fifth and Stark, will be finished next week.

Daly's house on Eighth near B will be completed within a week.

A large residence is being erected on the corner of Sherman and Front.

S. A. Lewis is building a residence on Front between Market and Mill.

Mr Gallagher is having a house built on Eighth between Montgomery and Harrison.

Several cottages will be erected on the south side of B between Fifteenth and Seventeenth.

Labbe Bros' brick, Second and Washington, is under roof and will be completed next month.

D. Mackay's residence, one of the prettiest in the north end, will be finished in about two weeks.

Colonel Dudley Evans is building on Front street a few blocks beyond Smith & Watson's iron works.

A portion of the Union block extension, the first story of which is up, will be occupied by the Portland Savings Bank.

The lot on the corner of Front and Lincoln is being excavated for building purposes, also [illegible] Grant and Front streets.

The erection of Mann's new buildings, at B and Fifteenth and Nineteenth and B has created a lively interest in that direction.

The Labbe grocery, which stood at the corner of Second and Washington, now occupies a place on Eighth near F and presents a fine appearance as a residence.

By reason of recent purchases two new Presbyterian churches will no doubt be erected on Ninth between Clay and Columbia, also on Sixteenth between H and I.

INQUEST.

Coroner Garnuld held an inquest over the remains of John Miller, the old gentleman who died suddenly in the hall of the Y. M. C. A. on Thursday afternoon. Mr Frost, who was in the room when Miller was taken ill, was also present at the inquest. He was examined at much length by the coroner, but made a very straightforward and reasonable statement of the case. After hearing all the testimony, including the sworn statement of Dr W. H. Saylor, the jury returned the following verdict:

We the jury having prosecuted full inquiries and examination find the deceased, John Milton, to have been formerly a resident of East Oakland, California, and that he came to his death from epileptic convulsions. Wm. A. Daly, James L. Daly, Jos. J. Smith, S. G. Bunting, T. G. Harkins, R. J. Forbes.

Telegrams have been sent to the bereaved family and also to Orin Lodge, I. O. O. F., in East Oakland, and pending the arrival of an answer the remains are still at the morgue. Deceased was a fine looking man, hair and beard quite gray, and was apparently about 50 years of age.

We are now connected with Walla Walla by rail completed as far as this place on Sunday last. The road is a narrow gauge but will be changed to a broad gauge as soon as the road is all completed.

We had a severe wind and rain storm this afternoon which lasted for several hours. The rain was very refreshing.

THE AMERICAN PEOPLE.

No people in the world suffer as much with Dyspepsia as Americans. Although years of experience in medicine had failed to accomplish a certain and sure remedy for this disease and its effects, such as Sour Stomach, Heartburn, Water brash, Sick Headache, Costiveness, Palpitation of the Heart, Liver Complaint, coming up of the food, low spirits, general debility, etc., yet since the introduction of GREEN'S AUGUST FLOWER we believe there is no case of Dyspepsia that cannot be immediately relieved. 30 000 dozen sold last year without one case of failure reported. Go to your Druggist and get a Sample Bottle for 10 cents and try it. Two doses will relieve you. Regular size 75 cents.

Republican Strength in New York.

[From the New York Herald, Sept. 10.]

Let Indiana go as it will, the republicans need not despair of New York. They have in their hands the patronage of the state government; the splendid revival of business operates in their favor; the election of all their candidates last fall with a single exception, accounted for by the extraordinary personal popularity of young Mr. Seymour, gives them just reason to think that the state is theirs.

William Hogarth English is the full name of the democratic candidate. It abbreviates nicely, W Hog English.

SAN FRANCISCO CHARTERS

Rapid Rise During the Week and Still Advancing

[SPECIAL TO THE OREGONIAN]

SAN FRANCISCO Sept 24—At the date of our last weekly review £3 3s direct for wooden ships was the highest rate paid Since then the market has advanced steadily There has not been any great activity owing to scarcity of tonnage but nearly all disengaged vessels in port last week have since been secured and several of the cheaper ships in the wheat fleet rechartered at a heavy advance. Calm and for the most part foggy weather has kept out tonnage fully due which has enabled holders of spot vessels to turn the situation to the best account At the close there have been several arrivals comprising both chartered and freest ips, but the supply is still entirely inadequate to the wants of the trade If we expect to do an average business this month and in October Nor is the amount due before the first of the year sufficient to meet the demand, if exports are to be up to the average of past seasons. At present there are but 5525 tons in port disengaged, part of which is not suited to the wheat trade while at the same time last year the total was 21 199 tons There are 40 153 tons under engagement for wheat against 48 118 tons in 1879 The amount on the way is increasing and the supply will be liberal three or four months hence, but meantime shipowners are in a position to control the market. The last engagement reported is at £3 10s 6d to Liverpool direct for wooden vessels—an advance of 7s 6d during the week Every ship taken during the week has been at an advance over previous rates and at the close the market is very strong and tending still upward

He has become an expert in the treatment of disease weakness and derangement of the reproductive organs of both male and female including diseases caused by the

Such as SPERMATORRHEA or SEMINAL WEAKNESS or LOSS OF PERFECT VITALITY Nearly two-thirds of all the Chronic Diseases spring, either directly or indirectly from some derangement of the sexual system and yet this subject is neglected by the majority of the Medical Profession

I know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time from a sense of modesty and sometimes from ignorance, and permit these diseases to exist until their constitutions become corrupted, their organization broken down and the hope of future happiness blighted, until death becomes a welcome messenger to carry them out of their miserable existence.

THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS,

FOR THE CURE OF

Hepatitis or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE

Symptoms of a Diseased Liver

PAIN in the right side, under the edge of the ribs increases on pressure, sometimes the pain is in the left side, the patient is rarely able to lie on the left side sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder and is sometimes mistaken for rheumatism in the arm The stomach is affected with loss of appetite and sickness, the bowels in general are costive, sometimes alternative with lax the head is troubled with pain accompanied with a dull, heavy sensation in the back part There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin, his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER

DR C McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results No better cathartic can be used, preparatory to, or after taking Quinine We would advise all who are afflicted with this disease to give them a FAIR TRIAL

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated

Every box has a red wax seal on the lid, with the impression DR McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C McLANE and FLEMING BROS on the wrappers

Insist upon having the genuine DR C. McLANE'S LIVER PILLS prepared by Fleming Bros , of Pittsburgh Pa., the market being full of imitations of the name *McLane,* spelled differently but same pronunciation

OFFICE OF THE

PACIFIC MUTUAL LIFE INSURANCE COMPANY

OF CALIFORNIA

SACRAMENTO July 1st 1880

To all Desirous of Securing the Benefits of Life Insurance

The first consideration with applicants for life insurance is or at least should be SAFETY Will the Money Paid out for the Policy be Prudently Invested? Are the Affairs of the Company Honestly and Efficiently Administered? When the Policy Becomes a Claim, will it be Promptly Paid, and thus the object which induced the payment of the premiums be fully attained The above queries naturally suggested and the character of the answers determines the course of the questioner and the selection of his Company

In this connection the Managers of the PACIFIC MUTUAL LIFE INSURANCE COMPANY respectfully beg leave to submit the following facts and statements concerning their Company

1 Since its organization A. D 1868 *it has issued [illegible] policies amounting in the aggregate [illegible] 975.*

2 It has Paid to Policy Holders for Matured Endowments, Dividends and Surrender Values, in Round Numbers, $1,000 000

3 Its claims have been paid Promptly and without Litigation *No judgment arising from a Policy claim has ever been rendered against it and [illegible] of this character pending*

4 It has repeatedly been examined by Sworn Experts, and most thorough and searching investigations made of its condition and business and IN EVERY CASE its Solvency and Trustworthiness have been Demonstrated

5 Its Stockholders and Directors are widely known as among the most capable business men and ablest financiers of the State of California and the integrity of their management is unquestioned

6. The laws of the State including the constitutional provisions affecting corporations are of the most rigid character such as to make the Company one of the safest institutions of its kind

Section 3 of Article XII of the NEW CONSTITUTION of the State of California is as follows

SEC 3 Each stockholder of a corporation or joint stock association shall be individually and personally liable for such proportion of all its debts and liabilities contracted or incurred during the time he was a stockholder as the amount of stock or shares owned by him bears to the whole of the subscribed capital stock or shares of the corporation or association The Directors or Trustees of corporations and joint stock associations shall be jointly and severally liable to the creditors and stock holders for all moneys embezzled or misappropriated by the officers of such corporation or joint stock association, during the term of office of such Director or Trustee

7 Its policy contracts contain no restrictions upon residence or travel and its forms of insurance are unusually attractive. The Low Rate Deposit Endowment and Mutual Investment Policies, are peculiar to this Company and offer advantages to the insured which are not surpassed if equaled by those of any other Company

8. When desired Policies can be registered by the Insurance Commissioner of California on the payment of a moderate fee and a policy holder in the PACIFIC MUTUAL LIFE INSURANCE COMPANY of California has then the *absolute guarantee of the State of California* that the money held by this Company against the contingency of his death is secured by bonds and mortgages deposited in the State Treasury With December 31st 1879 the Company closed its eleventh year and in so doing affords *the only instance on record* in which a life insurance company in the eleventh year of its existence was enabled to pay its death losses from interest receipts not only was this done but in addition thereto a considerable surplus remained

Believing ourselves entitled to the confidence and business of such as propose effecting insurance upon human life we solicit their patronage, and pledge ourselves to discharge to the best of our ability the important and sacred trust devolved upon us
